MANJEET GUPTA

Aspiring Data Analyst & Data Scientist
manjeet.tcsc@gmail.com | +91 9004437094 | Mumbai, Maharashtra, India

PROFESSIONAL SUMMARY

Currently pursuing SY B.Sc. in Artificial Intelligence & Machine Learning with a strong focus on data analytics and data science. Passionate about extracting meaningful insights from complex datasets and creating data-driven solutions. Proficient in Python, SQL, and data visualisation techniques, with hands-on experience in data manipulation and statistical analysis. Comfortable working alongside modern AI tools to accelerate research, prototyping, and problem-solving, while continuously building practical, self-taught skills outside the classroom.

CAREER OBJECTIVE

Motivated and analytically driven B.Sc. student specialising in Artificial Intelligence and Machine Learning, seeking an entry-level opportunity as a Data Analyst or Junior Data Scientist to apply skills in data wrangling, exploratory data analysis, and predictive modelling. Eager to contribute to data-driven decision-making, develop impactful dashboards and reports, and grow within a dynamic organisation that values innovation and data intelligence.

CORE SKILLS

- **Analysis & Programming:** Python, SQL, Pandas, NumPy
- **BI & Modelling:** Power BI, Power Query, DAX, Data Modeling, Star Schema, Tableau, MS Excel
- **Tools:** Jupyter Notebook
- **Domain:** Data Analysis, Statistics, Machine Learning
- **Soft skills:** Analytical Thinking, Problem Solving, Communication, Team Collaboration

Able to independently use AI tools to research, prototype, and ship working solutions — applying practical skills learnt largely through self-study and hands-on projects rather than formal coursework alone.

EDUCATION

B.Sc. — AI & Machine Learning
Thakur College of Science & Commerce, Mumbai (University of Mumbai) | 2025–2028 | CGPA: 9.14 (1st Year)

Senior Secondary (XII) — Commerce
Durgadevi Saraf Junior College (Maharashtra State Board) | 2025 | 84.17%

Secondary (X)
S.T.S Mission English High School (Maharashtra State Board) | 2023 | 80%

PROJECTS

India vs US – Job Market Trends, Demand and Salary Analysis (Jan–Jun 2026)
Personal Project — Power BI Data Analytics
An interactive Power BI data analytics dashboard analysing 100,009 job postings from India and the United States (January–June 2026), with interactive IN and US country slicers and a combined job market view. It explores job demand, monthly market trends and growth, company and regional distribution, and salary patterns across job roles, countries and experience levels.

- Designed a star schema data model (Fact_JobPostings with company, location, job role, education, work mode and date dimensions) and built DAX measures such as Average Salary, MoM Job Growth % and Job Market Share %.
- Tech Stack: Power BI Desktop, Power Query, DAX, and Data Modeling.

CERTIFICATIONS & COURSES

- **Fundamentals of Data Analytics on AWS** — Amazon Web Services (AWS), Issued Sep 2026
- **Basics of Data Analyst** — PW (PhysicsWallah), Issued Apr 2026
- **TechFest Workshop — Cloud Computing** — Techfest, IIT Bombay, Issued Dec 2025
- **Certificate Course in MS-Office** — Disha Computer Institution, Mumbai, May 2023

KEY STRENGTHS & ACHIEVEMENTS

- Achieved CGPA 9.14 in the first year of B.Sc. AI & ML, reflecting strong technical aptitude in data-centric subjects.
- Built a multi-agent AI recruiting system (AI Recruiter Agent Hub) as a hackathon capstone, combining Google ADK, Gemini, and Streamlit.
- Actively developing data analysis skills through Python, NumPy, Pandas, and SQL projects, with a focus on exploratory data analysis and visualisation, and by regularly using AI tools to learn new practical skills independently.
- Member of the Research Forum at Thakur College of Science & Commerce, contributing to college-level research and academic initiatives.
